Height / Weight:	6 cm. / 69 kg.
Position:	<ul style="list-style-type: none"> • Central defensive midfielder (preferred) • Right centerback • Right fullback
Foots:	Both_right
Player profile:	<p>I consider myself a versatile player, proficient at centre defensive midfield (CDM) (as my preference), centre midfield and centre/right back positions, having experienced all at some point in in my career. My strengths include breaking down play in the central areas and distributing the ball to wingers or strikers. I exceed in doing the so called 'dirty' work of the game and I thrive off contact with the opposition and tackling. My heading ability has also helped my progression in the game, as I feel it is one of my greatest strengths, I will not hesitate to throw myself in and win a 50/50 challenge. Running with the ball has always been a big thing for me as I like nothing better than beating a man and getting into threatening positions when I can, while ensuring my defensive duties are maintained. I am very composed on the ball and do not panic under pressure, which is a great attribute to have for every position on the pitch, particularly centre half. In all positions I defend on the front foot and make the attackers job as hard as possible. Having Captained Port Vale, Staffordshire County and Stafford Rangers at various levels I am willing to take responsibility on and off the pitch, while also ensuring my team are motivated.</p>
